

Required travel insurance

A medical insurance is compulsory for visitors to Sweden and other Schengen states. The insurance must cover at least 30 000 Euro and include costs for medical treatment, hospitalization and repatriation due to injury or medical reasons. The insurance must be valid in all Schengen states and cover the total length of the visit.

The reimbursement from the insurance company must be payable in any EU-country, Switzerland and Lichtenstein. The insurance certificate must be shown when the application is submitted. Please note that you have to bring your travel insurance with you when travelling due to inspections of relevant documents at the border control when entering the Schengen area.

A few examples for insurance companies that live up to the condition set are:

- Awash Insurance
- Nyala Insurance
- United Insurance

An insurance needs to cover the amount of days the applicant intends to stay in Schengen area but it is good if it also is valid for an additional 15 days.

Example:

An applicant wants to visit Sweden from 1 January to 15 January, which is 15 days. It is good if the insurance is valid for the entire Schengen area from 1 January to 30 January, but only for 15 days of stay.
